## **DETAILED ACTION**

## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - Claims 1-20, drawn to an apparatus and a method for associating input data with multimedia resources (Database or File Accessing), classified in class 707, subclass 1.
  - Claims 21-38, drawn to a business method for providing network services
     (Automated Electrical Financial or Business Practice or Management
     Arrangement), classified in class 705, subclass 1.
- 2. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

## Conclusion

A telephone call was made to Mr. Samuel A. Kassatly on October 15, 2002 at 1PM EST to request an oral election to the above restriction requirement, but did not result in an election being made.
